Subject:- Distribution of Fruit plants under the campaign "पेड़ लगाओ पर्यावरण बचाओ"
Sir,

I have honour to intimate that Govt. of Himachal Pradesh has emphasized the campaign "पेड़ लगाओ पर्यावरण बचाओ" to conserve biodiversity & environment. Planting fruit trees is beneficial not only for the environment & wildlife but also to make the life of future generation secure. Fruits in return are good source of vitamins, minerals, fibers and antioxidants. They protect growing children, women and adults from many other ailments and malnourishments. Fruit trees provide shelter and nesting places for birds, squirrels and insects. They promote pollination by providing nectar from their blossoms. The plantation drive of fruit trees in School & college campus and Anganwari etc. holds a significant place in creating a sustainable and thriving environment in educational settings. By emphasizing fruit tree plantation in schools & colleges we nurture a sense of environmental responsibility and nutritious food in students, fostering their understanding and appreciation for nature's importance. The Department of Horticulture has produced good quality & true to type fruit trees in Govt. Nurseries, Progeny cum Demonstration Orchard (PCDOs) and started distribution to public from 15th July 2024. The rate list finalized by Directorate of Horticulture, Shimla-2 for the Year, 2024-25 is enclosed for ready reference.

You are, therefore requested to direct all the School & College Principals/CPDO's under your jurisdiction to include fruit crops in their plantation drive programme and submit the demand of these fruit plants to the Horticulture Department.

Yours faithfully,

(Dr. Kamal Shrivastava)
Dy. Director of Horticulture,
