## **PRERANA: School of Experiential Learning**

### **A Mission to Inspire India - Framework**

#### **CONCEPT NOTE**

##### **1. Background**

Great leaders around the world have looked back at their life and acknowledged their first school as a start of their inspirational journey to cause change. They all revisited their first school and transformed them into institutions of excellence to inspire the youth of their respective countries. Our Prime Minister Shri Narendra Modi started his journey at the vernacular school in Vadnagar. The Vernacular School (Lat 23.78, Long 72.64) in the city of Vadnagar, Gujarat was established in the year 1888 AD (at a cost of rupees 16,023/-) from Maharaja Sayajirao Gaekwad of the erstwhile Baroda State, Gujarat.

Prerana will be based in the living town of Vadnagar, district Mehsana, Gujarat, in the Vernacular school, of which the Hon'ble PM is an alumnus. Prerana - The Experiential Learning School is the vision to inspire Bharat. It is a one week residential program offering the best of experiential and inspirational learning, equipped with the latest in technology, for students across the country. The program will be implemented by the Department of School Education and Literacy, MoE.

Prerana School in Vadnagar will be the first of such schools, providing an experience due to its innovative and engaging curriculum which is a novel idea, and unlike traditional teaching, a pioneering concept acknowledging the fact that true education extends beyond textbooks and classrooms. It will be where history will meet innovation, and tradition is seamlessly woven into a future-focused educational experience.

At the heart of the curriculum is the philosophy of value-based education which is a cornerstone of the NEP 2020. Its essence lies not only in the present but also in the ancient knowledge system which will reinforce the value system, creating experiences that can be replicated and adapted to inspire learners far beyond its walls. This will be achieved through a framework of joyful experiential learning with field visits, collaborative learning, use of advanced technology and community interaction. Children will express their understanding through different mediums such as art work, podcasts, blogs, photo essays, models made through 3-D printing, jingles, digital posters, games, and a variety of other such outcomes. Exposure through activities done in this /programme/camp will develop a sense of citizenship, pride in their country and instil a sense of enterprise and entrepreneurship in the children. This will promote a respect for the great unity in diversity of Bharat and a spirit of "*Vasudhaiva Kutumbakam*".

The curriculum of Prerana will be based on 9 theme-based classrooms being designed as under:

- **Swabhiman and Vinay**- Pride for the country's heritage and achievements, self-respect, and nationalism and humility
- **Shaurya and Sahas**-Various forms of strong leadership, bravery, and courage
- **Parishram and Samarpan**- Knowledge and heritage from ancient India to modern India, persistence, and perseverance in the face of difficulties and hard work
- **Karuna and Sewa**- Selfless spirit of service and compassion for deprived communities, Development of social consciousness for the progress of the country and society,
- **Vividhta and Ekta** – Respect and inclusion of the country's diverse culture and heritage, spirit of unity in diversity
- **Satyanishtha and Shuchita** - True integrity, honesty, and dignified leadership in personal and social life, Virtues for a leader
- **Navachar and Jigyasa**- Technological and entrepreneurship development in India with innovation and creative thinking, Make in India
- **Shraddha and Vishwas**- Reliance on reliability, honesty or competence, faith to succeed and develop resilience for future endeavours
- **Swatantrata and Kartavya** – Value for freedom and how to uphold it alongwith a Sense of duty towards society and country

These nine values, around which Prerana is founded, are the values which are the hallmark of a great and true leader. The curriculum based on these themes is at **Annexure I**.

## 2. Objectives

The aim of Prerana is to inspire the students of all the districts of the country from a place from where the inspirational journey of our Prime Minister Shri Narendra Modi started. The week-long camp/programme at Prerana school is a journey of inspiration to invoke the 3 following fundamental themes:

- Who am I?
- What is our history and Cultural Heritage.
- What can I do for my country?

Prerana School creates opportunities for students to explore country's great culture through their journey of Vadnagar, a living city, its history, archaeology, and traditional Bhartiya Gyan Parampara. Students will learn to appreciate their heritage through state-of-the-art technology.

As the participants embark towards this program, they will be driven by a steadfast dedication to inculcate values intricately woven into the fabric of the

Indian education system—values that have endured the test of time and make effective leaders.

### 3. Outcomes

- Students to develop a sense of belonging and pride, and reflect on how they can contribute to nation building.
- Experiential learning inspires students to take on a productive and leadership role for the progress of the nation. The program is expected to make students learn about an innovative pedagogy through experiential and immersive learning.

### 4. Implementation

- **Target beneficiaries** – The program will be for the students of Class IX to XII from each district of the country. The selection of Students will be done by a prescribed format and method through registration on **Prerana Portal**. The criteria will consider proportionate representation of gender, categories, CwSN and urban/rural population. This selection process will prioritise individuals with well-rounded personalities, driven by a deep passion and unwavering enthusiasm for shaping the future of our nation. The students will be accompanied with a female guardian teacher from the same district.
- **Main Program** – The full cycle of the program will be of **80 Weeks** to cover representation from all the districts in the country. The Mentors/Facilitators can be selected from experts in diverse fields. Mentors will possess strong IT skills and good communication skills. For each batch of twenty students and 10 guardian teachers, there will be 3 Mentors. All the mentors will have different profiles/expertise to bring in diversity. In the initial phase, mentors have been selected from among the teachers of NVS and GUERT, out of which the last 10 mentors will be selected out of which 6 will be members and 4 will be Co-Yash mentors. Course design will be shared with the Mentors and they will give their advices so that they are prepared for the nature of this type of course.
