Subject: Re-orientation session on Anaemia Mukht Bharat (AMB) guidelines for district and block officials of department of education on 14-05-2026.

Sir,

With reference to MD, NHM, HP vide letter No.: e-File No. 11609 NHMHP-CH0ANEM//2019-CH-Section dated 12-05-2026 on the subject cited above.

It has been observed that the operationalization of Iron and Folic Acid (IFA) supplementation activities under Anemia Mukht Bharat (AMB) in the field is not being carried out effectively as per the prescribed guidelines. Gaps in distribution, administration, monitoring, and reporting of IFA supplementation activities have been noticed from various blocks.

In this regard, it is to share that Anemia Mukht Bharat (AMB) is an ambitious programme of the Government of India aimed at combating anemia among pregnant women, children in the age group of 6 months to 10 years, and adolescents of 11-19 years. As per Government of India guidelines, IFA syrup and IFA tablets are administered to the school children with the active involvement of the Education Department.

It has further been observed by the authorities that the education staff/nodal teachers involved in the distribution and administration of IFA require reorientation on the Anemia Mukht Bharat (AMB) guidelines and other related aspects for effective implementation of the programme in the field. Therefore, keeping the above in view, a brief orientation session for District Programme Officers and Block Programme Officers (BPOs) has been scheduled on 14.05.2026 through a virtual mode from 2:30 PM onwards.

The meeting link for joining the virtual session is as under:
